EDUCATION

California State University Northridge

Bachelor of Science in Computer Science

Los Angeles, CA

Aug. 2024 – May 2026

PROJECTS

ClassLink — cs380classlink.com | *Python, Flask, React.js, Axios, FireBase, Render*

July 2025 – August 2025

- * Worked on a small team to develop a web application to match students with others who share the same classes and interest
- * Implemented a Python-powered backend with a Flask architecture connected to a Mongo Atlas database
- * Engineered secure authentication via bcrypt hashing
- * Designed and implemented a student data model in Python, with methods for database persistence and data integrity
- * Built and tested CRUD functionality for user, course, and match management through MongoDB collections
- * Designed and coded a number of CLIs to directly work with and test model and database functionality
- * Deployed finished application via Google FireBase and Render

ClasslyLinked — github.com/jjforsyth15/ClasslyLinked-app | *Python, Flask, React.js, Axios*

July 2025 – Present

- * Personally developed a full-stack web application based on previous project, ClassLink, but with further features
- * Implemented all the same features as ClassLink
- * Implemented further data models for students, courses, and admin users
- * Engineered a matching algorithm to highlight other students who share the same class sections
- * Designed and implemented RESTful APIs to support student, course, and admin functionality
- * Designed and built system for student users to add others as friends, with full request functionality

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, HTML, CSS

Frameworks: React, Flask, Pymongo, Bcrypt, Axios

Developer Tools: GitHub, Google Firebase, VS Code, Visual Studio, Render, Git Bash, MongoDB Atlas, Postman

VOLUNTEER EXPERIENCE

Director of Marketing and Outreach

March 2025 – Present

CSUN Society of Software Engineers

California State University - Northridge, CA

- * Contributed to the addition of over 400 club members via outreach strategies, increasing club visibility and member engagement through social media, fundraising, and campus events.
- * Managed club social media accounts to boost engagement and update club members of events.
- * Identified, secured, and coordinated fundraising opportunities with outside businesses, with 20-50% of business being donated to club funds.

AWARDS

Dean's List Fall

2024

CSUN College of Engineering and Computer Science

Northridge, CA

Mt. Sac Cross Country Invitational

2022

Glendale College Cross Country

Glendale, CA

CSUSB Coyote Challenge Medal

2022

Glendale College Track and Field

Glendale, CA
